Dear Sir:

In a filing dated December 4, 2002, Certified Japanese Patent Application 2001-23700 was filed in this case to fulfill the requirement for submitting a Certified priority document.

However, it has been discovered that this is the wrong Certified Japanese Application, and does not correspond to the foreign priority application for this case. The Certified Application filed in this case actually belongs in a different pending application.

Therefore, with this letter, we hereby request that the Certified copy of Japanese Application 2001-23700 which was filed in this application be transferred to:

Serial No.: 10/047, 459
 Filed: January 14, 2002
 Title: OPTICAL FILTER AND METHOD OF MANUFACTURING
 THE SAME

We are filing the same request in application 10/047,459 as well.
